Kitchen sort-out

For this activity, you will need:
Kitchen utensils

1

Take your child to the kitchen and explain you need help with sorting the drawers. Take out a pile of utensils of different colours, shapes, sizes etc and put them on a large tray.

2

First, ask him to sort the items by colour. All the black things together; all the white things together etc.

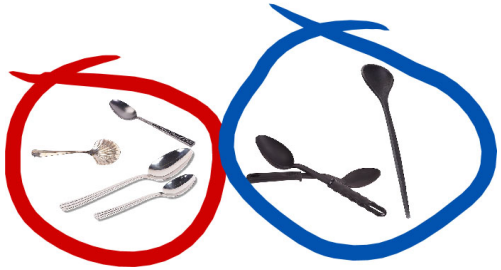
EYFS Learning Goals

Mathematics
- Shape, space and measures

3

Then sort by type: all the spoons together and all the brushes together. Then sort by texture: all the wooden things together and all the plastic things together.

4



Finally, ask him to sort by two criteria: e.g. colour and use. So, the spoons pile is sorted into colours too. Sorting by 2 criteria is a great introduction to logical thinking..
